ABOUT THE STUDIO

# A studio for calm, measured interiors

KAÏRA Interior Design is an interior architecture studio founded by Karen Wehbe. It designs bespoke residential and professional interiors, from the first sketch to the technical drawings.

Each project starts with listening: how a family lives, how a team works, how light enters the rooms. From there the studio builds a single, clear idea and carries it through every scale — the plan, the wall, the piece of furniture, the joint between two materials.

The result is a quiet luxury: natural materials, integrated light, furniture drawn for the space, and nothing that does not serve the way the place will be lived in.

Karen Wehbe

FOUNDER, KAÏRA INTERIOR DESIGN

CREATIVE VISION

*“Light, matter and measure — an interior is designed from the inside out.”*

*I* Light

Daylight first, then integrated lighting: coves, backlit niches and panels, never a bare source in sight.

*II* Matter

Oak, marble, travertine, lacquer and textured fabrics, chosen for how they age and how they feel to the touch.

*III* Measure

Every wall is composed: proportions, joints and custom furniture are drawn together, as one piece of architecture.

SERVICES

# What the studio designs for you

*01*

## Interior Design

Concept, atmosphere and complete design of residential and professional interiors.

*02*

## Space Planning

Layouts that organise circulation, storage and uses, room by room.

*03*

## 2D Plans

Furniture and layout plans, clear and dimensioned.

*04*

## 3D Visualization

Realistic renders to see the project before it is built.

*05*

## Custom Furniture

TV walls, libraries, wardrobes, headboards and dressings drawn for each space.

*06*

## Material Selection

Woods, stones, lacquers, fabrics and finishes, presented as boards and samples.

*07*

## Technical Drawings

Elevations, sections and details for the workshops and the site.

*08*

## Project Follow-up

Coordination with the craftsmen and follow-up through to completion.

SELECTED PROJECTS

# Selected projects

## *01* Villa

Private residence — ground & first floor

## *02* Selected Interiors

Living spaces, kitchen, entrance, executive office

## *03* Children's Rooms

A collection of five residential concepts

PROJECT 01

# Villa

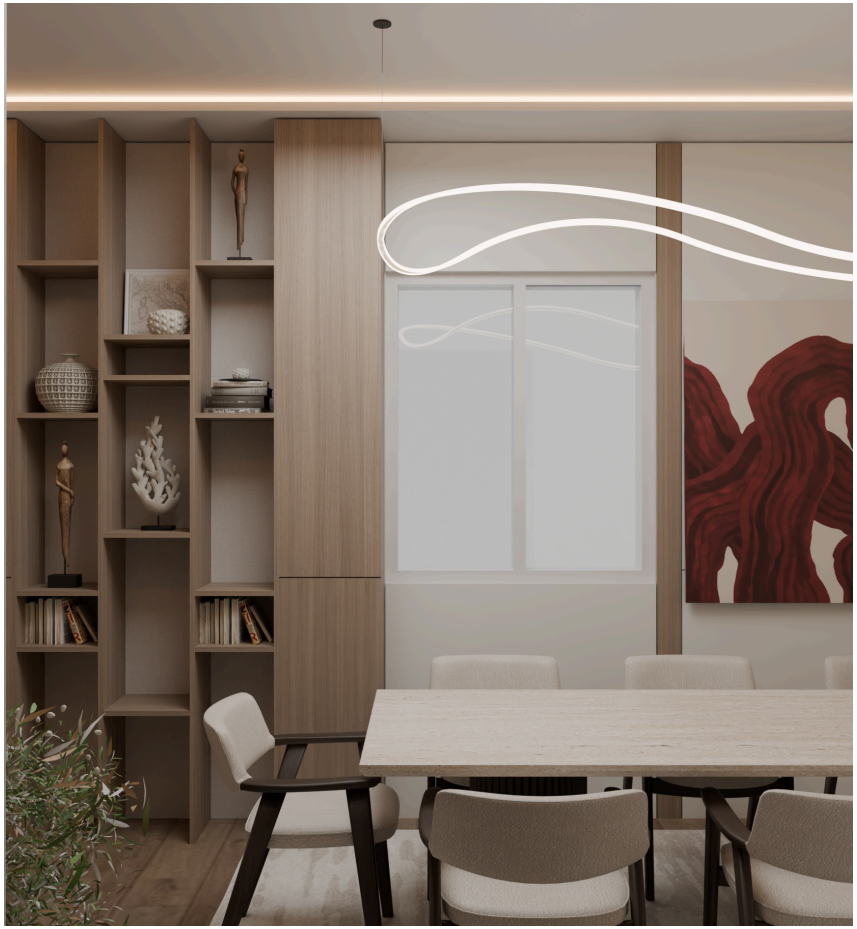
PRIVATE RESIDENCE — GROUND & FIRST FLOOR

A family villa conceived as a sequence of warm, quiet rooms, each organised around one wall drawn as a piece of furniture.

| | |
|---|---|
| SPACES | Living & dining room, guest bedroom, first-floor living room, master bedroom |
| SCOPE | Interior design, space planning, custom furniture, 3D visualization, technical drawings |
| PALETTE | Light oak, cream, dark wood, veined marble, touches of burgundy and khaki |

PROJECT CONCEPT

# Warm minimalism, written in oak and light



## CONCEPT

The villa is designed as a calm envelope: cream panels with shadow joints, light oak columns and integrated lighting form a continuous backdrop from room to room. Against it, a few strong pieces — a burgundy artwork, a dark marble band, a sculptural pendant — give each space its character.

## INSPIRATIONS & INTENTIONS

Contemporary residential architecture with a warm, tactile reading: wood that frames, stone that anchors, light that draws the volumes. Each room receives one custom-designed wall — TV wall, library, headboard or dressing — so that storage, light and decoration become architecture.

## PALETTE — SAMPLED FROM THE RENDERS

| Light oak | Cream panels | Dark wood | Veined marble | Travertine | Burgundy art | Khaki linen |
|---|---|---|---|---|---|---|
| #6A5442 | #978B80 | #251B13 | #97887A | #C2BAB2 | #5C2924 | #3A3322 |

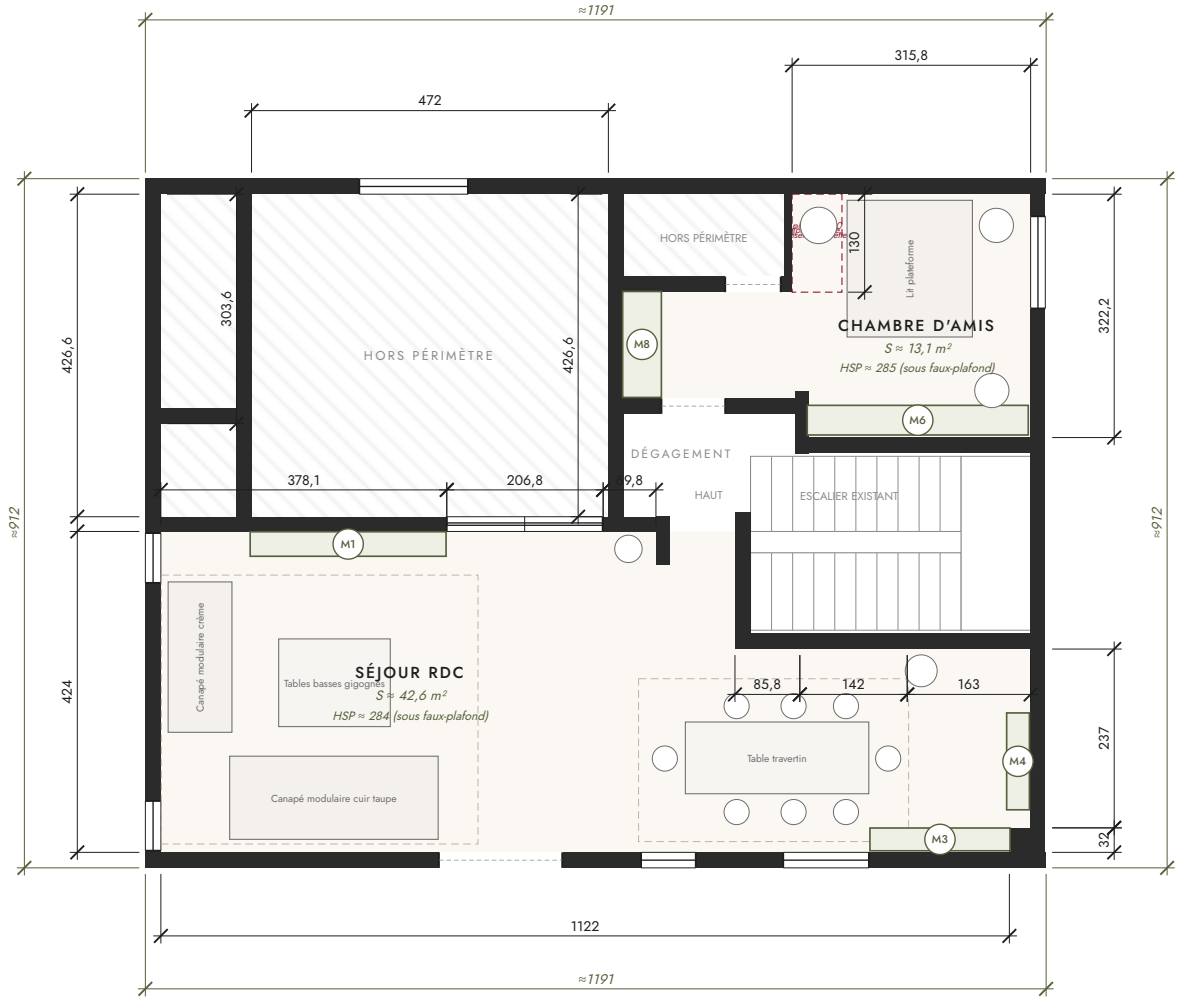
SPACE PLANNING

# Ground floor — layout plan

Living and dining room organised around three custom walls — TV wall, library and console — with the guest bedroom off the hall.

Black dimensions: written on the architect's plan. Olive ≈ dimensions: measured to scale. Full technical drawings in the KAÏRA technical dossier.

SCALE 1:100 (A4)

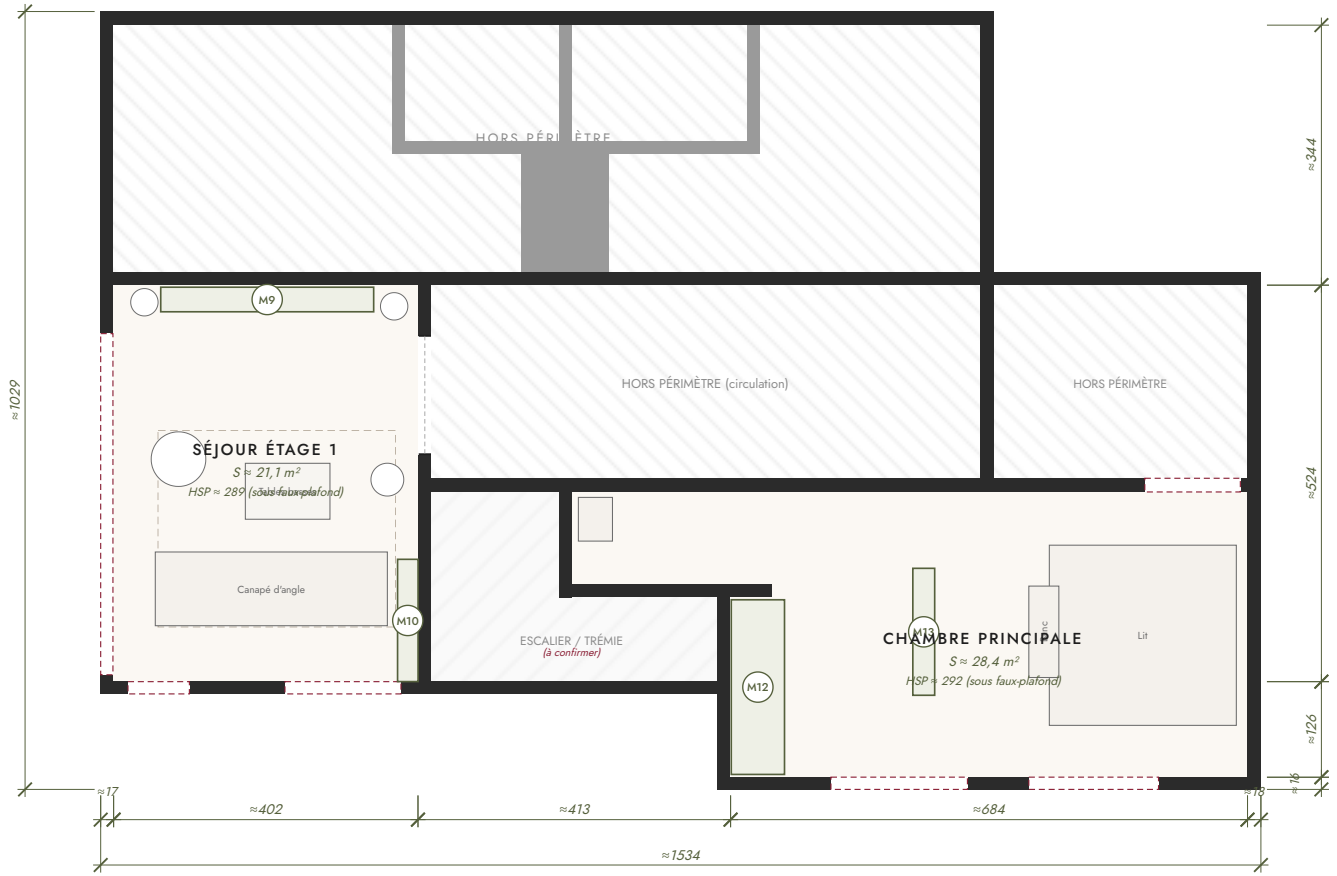


SPACE PLANNING

# First floor — layout plan

First-floor living room and master bedroom with walk-in dressing. Dimensions ≈ measured on the 3D model (1 m grid), to be confirmed on site.

SCALE 1:100 (A4)

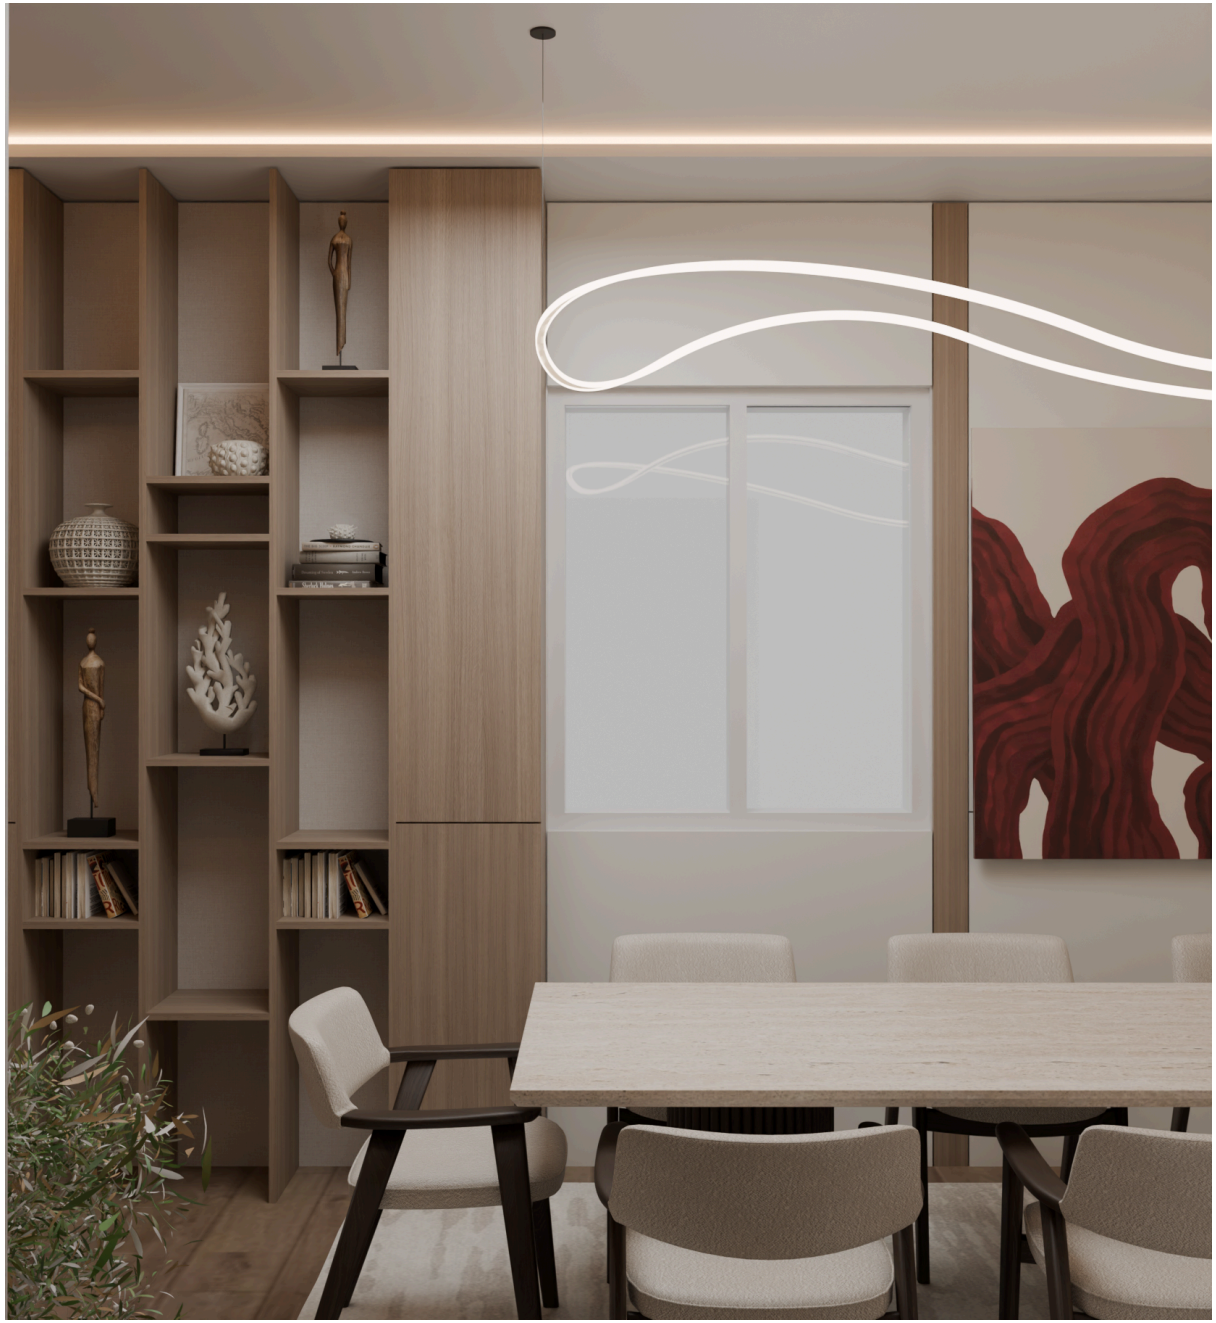


3D VISUALIZATION

# Living room

Graphic artwork wall framed by sheer curtains; modular sofas in cream and dark leather.

Oak columns with backlit fluted bases and the dark wood entrance door.



3D VISUALIZATION

# Dining room

Travertine table, bouclé chairs and a sculptural LED pendant under a lit ceiling cove.

Asymmetric oak library, veined marble column and floating console.

3D VISUALIZATION

# Hall & gallery

A double door in dark wood set in cream panels; the ceiling is split into two lit coffers.

The gallery wall: a large portrait painting and an olive tree mark the passage.

3D VISUALIZATION

# First-floor living room

Sage sofas, a marble coffee table and a burgundy-patterned artwork.

Backlit oak library and a cognac leather pouf; sheer curtains filter the light.

3D VISUALIZATION

# Master bedroom

A dark veined marble band, backlit, between oak columns and mirrored panels.

Wall-to-wall upholstered headboard, khaki linen and a brass-legged bench.

3D VISUALIZATION

# Guest bedroom

Upholstered platform bed against vertical oak slats and a slim mirror strip.

Soft light from opal pendants and a perimeter ceiling cove.

MATERIALS & FINISHES

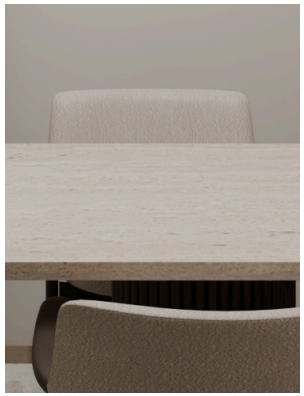
# Materials & finishes

## Light oak
Columns, panels and libraries

#6A5442

## Dark veined marble
Backlit headboard band

#312A1B

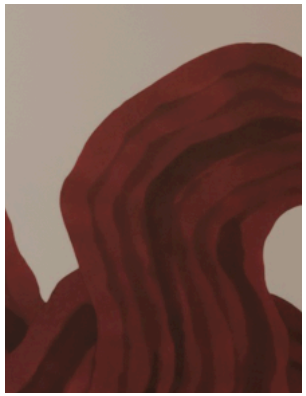


## Travertine
Dining table

#C2BAB2

## Dark wood
Entrance double door

#251B13



## Burgundy
Dining-room artwork

#5C2924

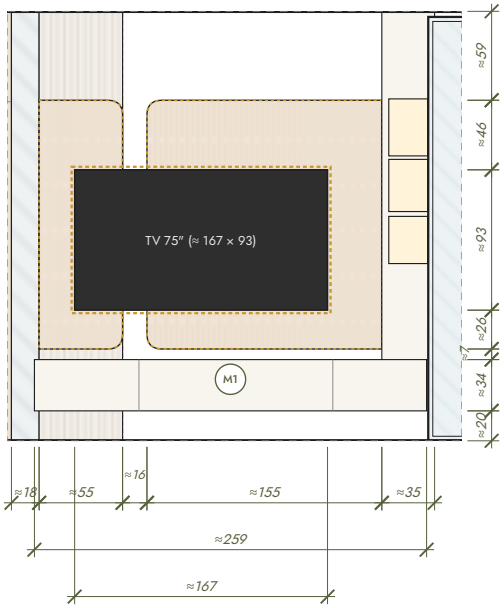
## Oak & light
Backlit library, first floor

#563C27

Close-ups taken from the project renders; tints sampled on the renders. Manufacturer references and final finishes are selected with the client on physical samples.

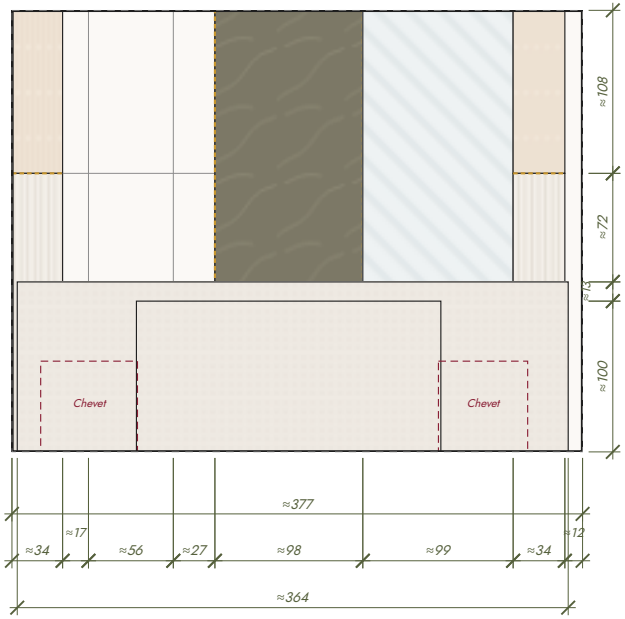
FURNITURE DESIGN

# Custom furniture



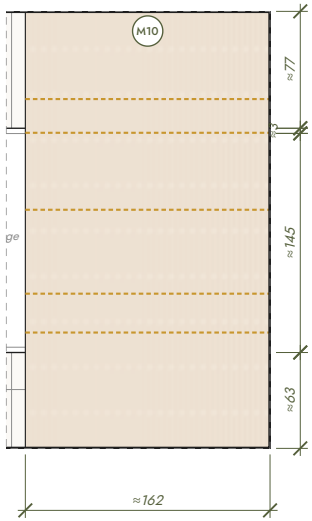
## TV wall — living room

Fluted column, mirror strip, rounded backlit oak panels, lit niche column and a 259 cm floating cream unit.



## Headboard wall — master bedroom

Backlit dark marble band, oak columns with fluted bases, mirrored panels and a wall-to-wall upholstered headboard.



## Library — first-floor living room

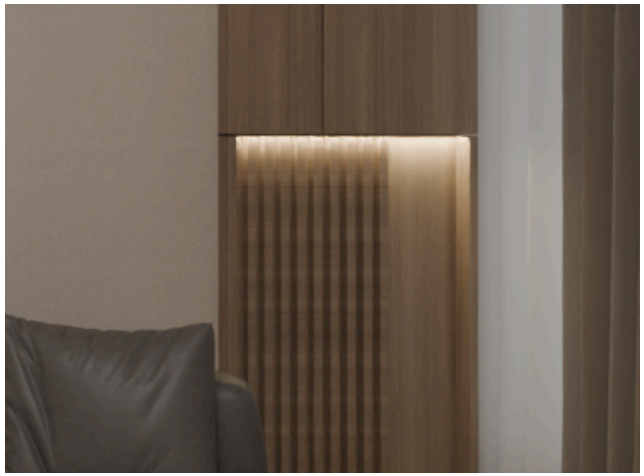
Oak library with integrated lighting under each shelf, closed base, next to the double entrance door.

Elevations at 1:50 (A4) from the KAÏRA technical dossier. ≈ dimensions are measured on the plans and renders; final dimensions after site survey.

INTERIOR DETAILS

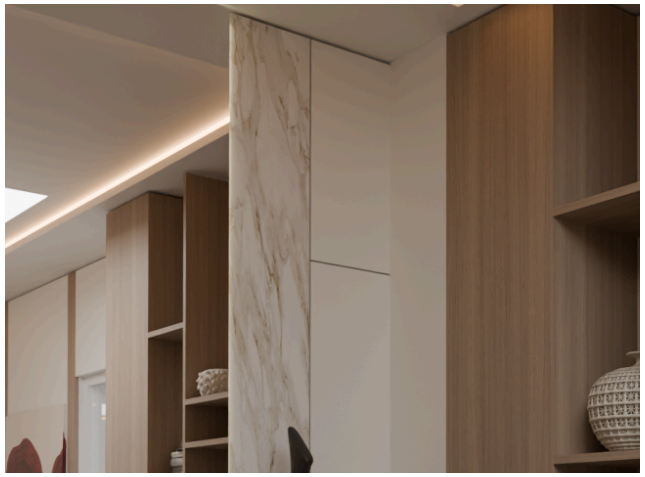
# Interior details

Backlit marble band between oak columns



Fluted oak base with integrated LED

Library composition and objects



Veined marble column and floating console

Door hardware on dark wood

Upholstered headboard and bench

PROJECT 02

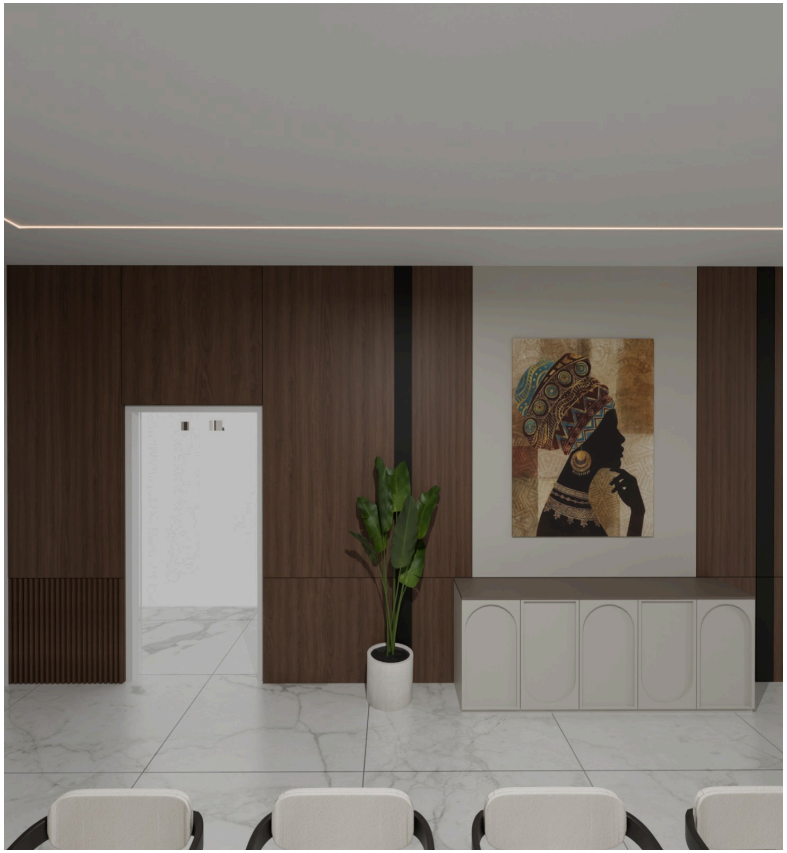
# Selected Interiors

A selection of spaces designed by the studio: living areas, a kitchen, an entrance and an executive office.

Open living space — white and grey modular sofas, oak-clad columns, a dark wall unit and lit ceiling coves, with the dining area beyond.

## Living room & staircase

A luminous living area opening onto a sculptural white staircase; arched sideboard, recessed lighting and a graphic artwork.



## Entrance

Walnut wall panelling with black reveals, an arched-front sideboard, a portrait artwork and marble-effect flooring.

KITCHEN

# Kitchen

Cream lacquered units rise to the ceiling around a waterfall island in boldly veined stone. Black appliances and a smoked-glass display cabinet add contrast; a herringbone floor and layered ceiling coves bring warmth.

WORKSPACE

# Executive office

An executive office facing a panoramic city view: walnut desk and meeting table, backlit green onyx panels framing the shelving, and a lounge corner in soft leather. Marble-effect flooring and a perimeter light cove keep the space bright and calm.

PROJECT 03

# Children's rooms

## Arches, scallops and clouds: a collection of five residential concepts where soft shapes are drawn into the custom furniture itself.

Each room has its own palette — powder pink, olive, caramel — always rooted in cream and light wood, with indirect light integrated into niches, arches and headboards.

### Douceur Lapin

Nursery — powder pink

### Jungle Douce

Evolving nursery — olive

### Nuages

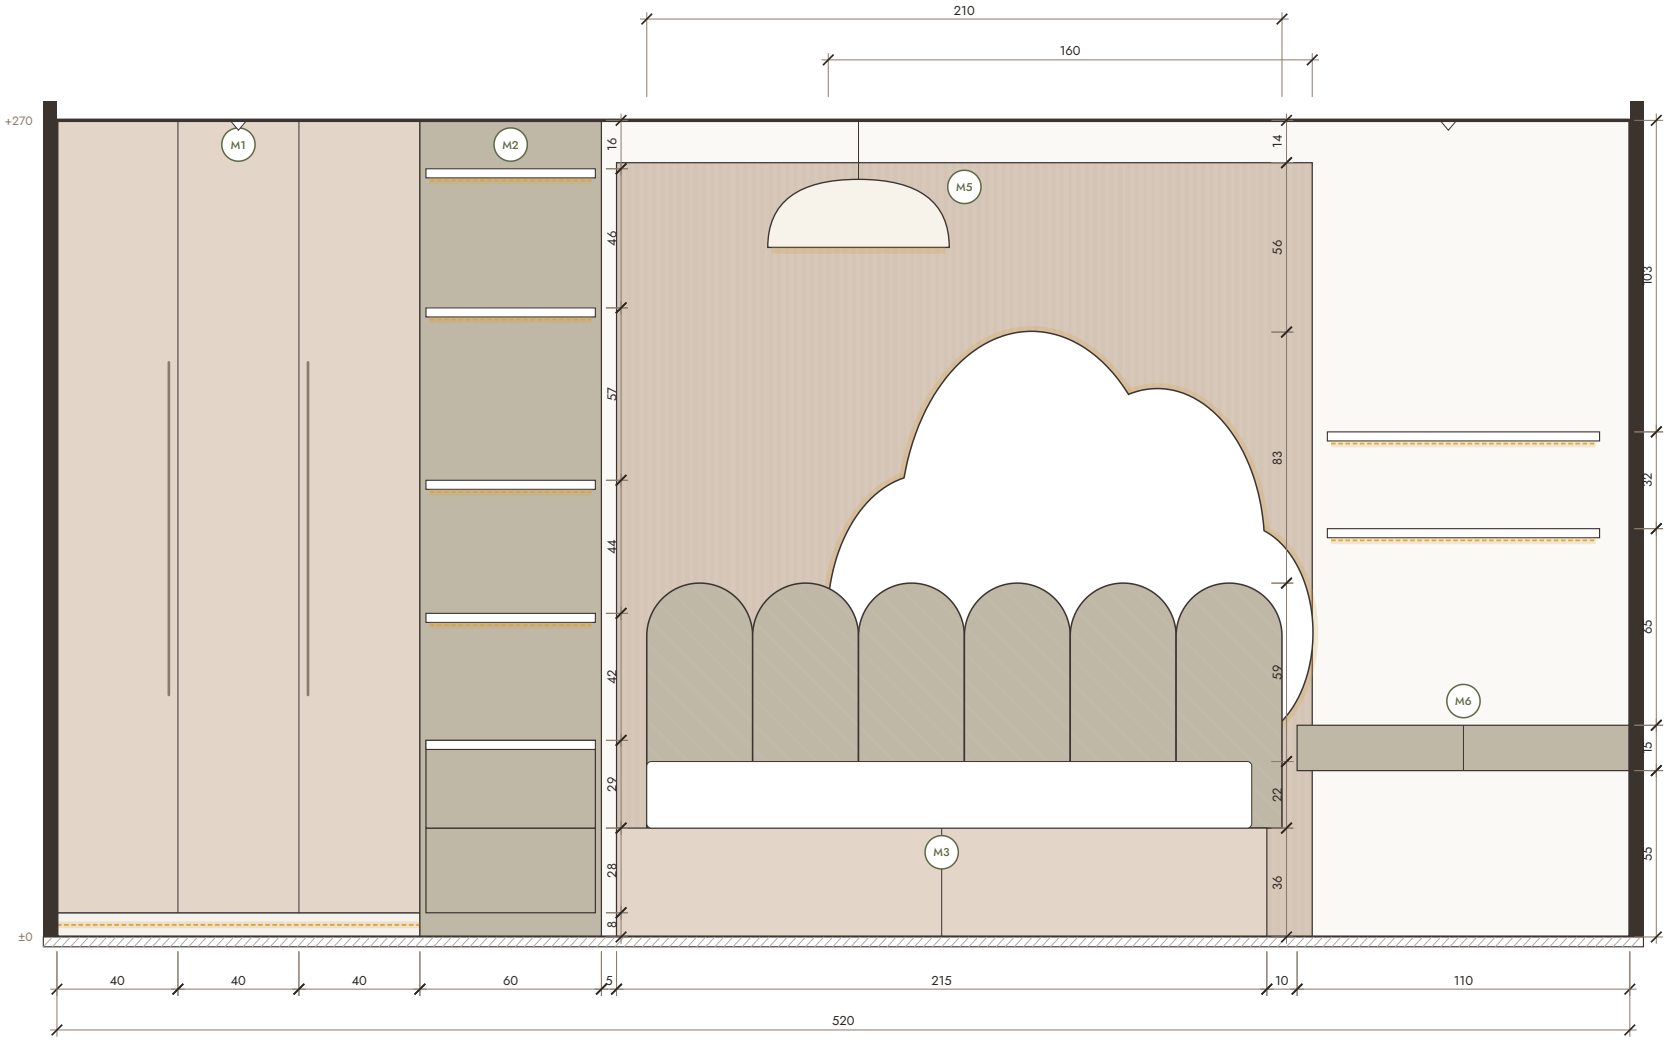
Early-childhood room — olive

### Ourson Caramel

Early-childhood room — caramel

DESIGN DRAWINGS

# From render to drawing



Nuage Olive — elevation of the decorative wall, 1:25 (A4): wardrobe, olive storage column, fluted wall with backlit cloud, upholstered headboard, trundle bed and floating desk. Proposed concept dimensions in cm.

DESIGN PROCESS

# From the first visit to the finished space

*01*

## Listening

Brief, uses, budget and expectations; visit of the space.

*02*

## Site survey

Measurements and photographs; existing plans collected.

*03*

## Concept

Atmosphere, palette, materials and first layout options.

*04*

## Space planning

2D layout plan validated with the client.

*05*

## 3D visualization

Realistic renders of each key space.

*06*

## Technical drawings

Elevations, sections and custom furniture details.

*07*

## Material selection

Samples, finishes and manufacturer references.

*08*

## Follow-up

Coordination with workshops and craftsmen until completion.
