Posting order — step by step

1. Publish **POST-01**, then **POST-02**, … up to **POST-12**, in this exact order (ideally the same day, a few minutes apart).
2. For each post: **+** ▸ **Post** ▸ select multiple ▸ tap the files in the order **1, 2, 3…** ▸ choose the **4:5 portrait** crop so nothing is cut ▸ Next ▸ paste **caption+hashtags.txt** ▸ Share.
3. When all 12 are live, pin: **POST-02 Our Services**, then **POST-01 Meet KAÏRA**, then **POST-03 The Project** (open the post ▸ ⋯ ▸ Pin to your profile). Instagram shows the last pinned first, so the top row reads **The Project · Meet KAÏRA · Our Services**. If it differs, unpin and pin again.

Meet KAÏRA — the architecture of calm.

KAÏRA is an interior architecture studio for residences, villas and workspaces. We design calm spaces where light, proportion and honest materials come first, and where every line has a reason to exist.

Welcome to our studio.

The Project — Villa master bedroom.

A suite built around a single gesture: a band of dark veined marble, backlit, rising behind a wraparound headboard with soft, rounded lines. Lit wood slats, glass globe pendants on fine gold rods and olive bed linen complete a quiet, enveloping atmosphere.

Designed by KAÏRA Interior Design.

Featured project · Villa — First-floor lounge.

A more intimate living room, filled with daylight from tall windows. A large red-and-white organic artwork answers the lit wood shelving, while a taupe corner sofa, an oval veined-marble coffee table and cognac leather accents bring warmth.

Swipe for the project sheet and its palette.

Featured project — Open-plan living.

Light everywhere: pale floors, cream wall panels with fine shadow gaps and low modular sofas in white and grey, around a white staircase and a graphic artwork in warm earth tones.

Swipe for the project sheet and its palette.

Featured project · Villa — Dining room.

Receiving under a line of light. A long pale stone table on a fluted dark base, eight chairs in bouclé and dark wood, and a sculptural pendant that draws a free line of light above. A deep burgundy artwork gives the room its character.

Swipe for the project sheet and its palette.

Featured project · Villa — Living room.

A reception room composed around art. Cream wall panels with fine shadow gaps frame a large line drawing, while vertical wood columns with integrated light give the room its rhythm and height. Two low modular sofas, in taupe leather and soft cream, face each other on a pale rug.

Swipe for the project sheet and its palette.

5 keys to a calm interior. Save this post for your next project.

01 · Start with light: plan daylight first, then add warm, indirect layers.
02 · Limit the palette: three calm base tones and a single accent.
03 · Choose honest materials: stone, solid wood, linen and wool age beautifully.
04 · Hide what you don't need to see: flush doors, integrated storage, concealed lighting.
05 · Give art a wall of its own: one strong piece, well lit, with space around it.

"True luxury is a space that lets you breathe."

Space around things, light that changes with the hours, materials you want to touch. That is the luxury we design for.

Featured project — Kitchen.

A bright kitchen built around one stone. A waterfall island in veined stone, matched by the splashback, stands against full-height cream lacquered cabinetry without handles. Black accents, the fridge and a glass-front tower, give the room its depth, while a light herringbone floor and a ceiling cove of warm light keep it luminous.

Swipe for the material notes.
